Summary

More than five years working with US companies, the last four of them remotely. I started in customer service at Sutherland and moved into outbound sales at the end of 2022, mostly for real estate investors and wholesalers. I qualify motivated sellers, manage leads through to the offer and close deals: as Acquisition Manager at Silva Realty I closed 2 to 4 deals a month. I also set B2B appointments, and I currently book business owners for a healthcare M&A firm. On appointment-setting shifts I make 350 to 400 dials a day, and on acquisitions I call new leads within 5 minutes of them coming in. I also provide and manage small calling teams, from hiring and training to daily coaching and quality control.
