Amr Abdelgawad

Real Estate Acquisitions and Lead Management

Alexandria, Egypt | Works US business hours | amr@amrabdelgawad.site | +20 103 261 3433 | amrabdelgawad.site

SUMMARY

Six years working with US companies, the last four of them remotely. I started in customer service at Sutherland and moved into outbound sales in 2022. Since 2023, most of my work has been with real estate investors and wholesalers. I find and qualify motivated sellers, follow up until they're ready and negotiate the agreement when the deal is mine to close. I was the top agent out of 10 at TTO Real Estate in December 2025 with 52 qualified leads. All four of my Upwork contracts are rated 5.0.

EXPERIENCE

B2B Appointment Setter, Healthcare M&A

2026

Fortune Consultants, remote

- Cold call owners of durable medical equipment (DME) companies to find out if they'd consider selling. I get past the gatekeeper and confirm it's an active DME business before qualifying the owner.
- Book interested owners with the firm's transaction coordinators and get their commitment to watch a short prep video before the meeting.
- Handle early questions about fees and valuation, and pass owners who want more information to the follow-up team.
- Keep the CRM updated with every lead and follow-up.
- Bring in 3 to 5 qualified leads a day.

Asset Operations Specialist

2026

BT Partners, remote

Daily operations for RV parks and rental properties

- Handle all incoming calls, texts and emails for the properties. I monitor the shared inboxes, virtual mailboxes and phone lines (Dialpad, GoHighLevel and Pebble), respond to every inquiry and keep a log of each contact.
- Support campers with reservations and questions and follow up on account balances.
- Manage the camper agreement process in PandaDoc and make sure every agreement is complete and signed.
- Work with the team every day to make sure the week's tasks are done, and send weekly reports to the principals on each property's activity and open items.

Vendors and property projects

- Set up 50+ vendor accounts for an RV park and its restaurant. Worked through the agreements with each vendor, opened credit accounts and set up paperless billing and autopay.
- Assisted the property owners with a break-in insurance claim on a rental property. Reviewed the policy, flagged a gap in theft coverage and drafted the claim email.
- Followed up on insurance renewals, reviewed invoices (and caught a recurring charge that shouldn't have been there) and built a workforce housing outreach tracker with 18 target companies.
- Compared contractor quotes for a mobile home placement and built a client satisfaction tracker (CSAT, NPS and CES).

GoHighLevel and marketing support

- Manage a GoHighLevel webinar funnel for a real estate educator, testing landing pages, email sequences, Stripe checkout and replay pages.
- Set up each webinar (email sequences, Zoom and ManyChat), track live attendance, edit the replay and answer inquiries and Instagram DMs.

Acquisition Manager and Lead Manager

2025 – 2026

Silva Realty and CNL, remote

Lead Manager, CNL

- Pre-qualified motivated seller leads and documented each seller's motivation, timeline, property condition and asking price before handing the lead to acquisitions.
- Tested price flexibility early with a low anchor so acquisitions knew where each seller stood.
- Ran the land acquisition pipeline in the CRM from first contact to offer.

Acquisition Manager, Silva Realty

- Negotiated directly with property owners, walked them through the contract and got signed agreements on off-market deals.
- Matched each seller to the offer that fit their situation, whether cash, seller finance or novation.

- Used the VRT method (validate, respond, transition) on the usual objections like price, a spouse who needs to agree or a competing offer.
- Worked with fix-and-flip, buy-and-hold and wholesale investors, each with different buying criteria.

Real Estate Cold Caller 2023 – 2025

TTO Real Estate, Iron Horse, Galaxy Call Centers, BoomVA, NAC, Dial Force and Coldio, remote contracts

- Averaged 2 to 5 qualified seller leads a day.
- Worked seven client contracts over three years for investors, wholesalers and brokerages, sometimes two at once.
- Ran circle prospecting campaigns and set listing appointments for licensed agents at Galaxy Call Centers.
- Kept each client's CRM pipeline up to date across different platforms so every lead had notes and a next step.

Solar Appointment Setter 2022 – 2023, 2026

Sun Rock Solar (2022 – 2023) and two Upwork contracts (2026), remote

- Called US homeowners about their electricity bills and booked up to 3 qualified consultations a day for the field sales team, all logged in the CRM.
- Qualified each homeowner on ownership, average monthly electric bill, roof condition and shade, and credit before booking.
- Explained how solar could lower their monthly bill and handled objections and questions about cost and the consultation.

Roofing Appointment Setter 2026

Marketing Storm Leads (client: Clear Top) and Call Hammer Leads, remote

- Called homeowners after hail and wind storms to offer a no-cost roof assessment from a licensed local roofing company.
- Booked inspection appointments with the homeowner or decision maker and handled objections around need, urgency and trust.
- Qualified every appointment on roof age and type, ownership, property type, insurance carrier and whether they had already signed with another roofer.
- Averaged around 2 qualified roofing leads a day.

B2B Sales Specialist Mar – May 2026

Moving Marketing Services, Upwork contract, remote

- Cold called owners and managers of moving companies across the US to pitch marketing plans built to bring them more customers.
- Got past gatekeepers to reach the decision maker and qualified their interest before booking a call with the client's sales team.
- Kept the CRM updated with every lead and follow-up.
- Generated up to 2 qualified business leads a day.

Customer Service and Technical Support Aug 2020 – Oct 2022

Sutherland Global Services, on-site

AT&T, billing, sales and technical support

- Handled billing disputes for wireless, internet and TV customers.
- Kept at-risk customers from cancelling by finding out why they wanted to leave and fixing that problem.
- Recommended and sold wireless, internet and TV plans based on how each customer actually used them.
- Cross-trained into technical support and took on troubleshooting calls on top of billing and sales.

Cricut, technical support

- Phone and email support for product setup, troubleshooting and repairs. Escalated hardware cases to engineering and stayed on each one until it was resolved.

FTD, customer service

- Fixed failed and late flower deliveries during peak holiday seasons with the logistics and sales teams.

TOOLS

CRMs: GoHighLevel, Podio, Follow Up Boss, Salesforce, Pebble, Asana. **Dialers:** Mojo, BatchDialer, ReadyMode, CallTools, Aircall, Dialpad, Quo (OpenPhone). **Other:** PandaDoc, Stripe, ManyChat, Zoom, Vimeo, Google Workspace.

ACHIEVEMENTS AND EDUCATION

- **#1 of 10 agents at TTO Real Estate, December 2025.** 52 qualified leads in the month, 10 more than second place, and the most hot leads on the board (6).
- **5.0 on every Upwork contract.** 4 contracts and 241+ hours across real estate, solar and B2B outreach.
- **Written recommendation** from Adham Abo Elenein, CEO and Founder of Galaxy Call Centers (November 2025).
- **Signed agreements on off-market properties** as Acquisition Manager at Silva Realty.
- **Education:** B.A. in Islamic and Egyptian History, Alexandria University, expected 2027
